Technical Skills

- **Frameworks:** TensorFlow, Keras, HuggingFace, LangChain, Google ADK
- **Languages:** C, Python, HTML5, CSS3, JavaScript
- **Tools & Libraries:** Git, GitHub, Scikit-learn, Matplotlib, Pandas, Numpy, OpenCV, Microsoft Azure
- **Other Skills:** Data Analysis, Machine Learning, Deep Learning, Generative-AI

Experience

- **DAViSE LAB, NIT Delhi (June 2025 – Present)**
Research Intern / Data Analyst Intern
 - Conducting data-driven analysis on Heat Index–Soil Moisture correlation using ERA5-Land datasets.
 - Performing preprocessing, feature extraction, and visualization using Python (Pandas, NumPy, Matplotlib).
 - Collaborating with the team to generate insights for predictive climate modeling.
- **Pinnacle Labs – Remote (Apr 2024 – May 2024)**
AI Intern
 - Built a Resume-Parser App to compute ATS scores and designed an interactive interface.
 - Deployed and documented the complete project on GitHub.

Projects

- **Heat-Wave Model Forecasting with Linkage to Soil Moisture using**
 - Built a real-time detection system using ERA-5 Climate Data for forecasting Heatwaves for spatial along with real-world analysis and climate forecasting.
 - Integrated various models together for inference and later integrated with soil moisture dynamics analysis.
- **Amazon ML Challenge (Hackathon on Unstop)**
 - Applied computer vision-based feature extraction on image data provided in the challenge..
 - Visualized model results with Matplotlib.
- **GuardianAI - Your Lifeline Crisis Agent**
 - Built a Multi AI Agent robust system for a capstone project for Google x Kaggle Hackathon.
 - Explored and leveraged the use case of AI agents and built using Google ADK Library.

Education

- **KIIT University, Bhubaneswar**
B.Tech – CSE — 2022–2026 (3rd Year)
CGPA: 7.75
- **DPS Indore (12th – 2021) — 75%**
- **DPS Gomti Nagar, Lucknow (10th – 2019) — 91%**

Certifications

- What is Data Science — IBM (Coursera)
- Google - Introduction to AI in Azure
- OCI AI Fundamentals — Oracle University
- Microsoft Learn - Introduction to Cloud Infrastructure: Describe cloud concepts
